Experienced software development engineer proficient in modern web technologies and cloud platforms. Demonstrated excellence in project management and UI development.

Work Experience

Software Development Engineer I

OverDrive - Kanopy | *February 2021 – Present*

- Lead implementation of new features on the lambda job System in typescript with Nest.Js, achieving a 98% success rate in ingesting external supplier files into the Content Management System.
- Added post-processing pipeline to fast forward utilization with AWS S3 storage of the files and their availability on the platform.
- Upgraded and deployed a scalable AWS ECS containers using Typescript and Nest.Js, resulting in near 0 errors post-release compared to 2000+ daily previously.
- Automated captions format conversion with cconverter, reducing editing time by 80% using Nuxt.js.
- Engineered a service to sync databases with a third-party API, enhancing data export efficiency to save 4 hours per person per day.
- Revamped the file bundling system by changing the versioning system of assets and accelerated the throughput of published titles by 150% year-over-year.

Consultant – Project Manager

HeadMind Partners | *Oct. 2019 – May 2021*

- Client was a French Major Telecom Operator.
- Managed automation projects for Electronic Programing Guides, ensuring timely and safe deployments for 4M+ consumer set-top boxes.
- Led teams for Acceptance, Quality Assurance, and Deployment phase projects for the Content Management System's new updates.
- Created Acceptance processes and documented new tools on QC software and Excel used by management teams.
- Streamlined processes and documentation, enhancing efficiency and reporting with 2 hours saved weekly.

Backend Software Engineer

Kanopy | *Feb. 2018 – Feb. 2019*

- Spearheaded the end-to-end development, implementation, and maintenance of crucial PHP-based business tools, including Accounting, ERP integration, Billing/Invoicing, and Data Analysis/Reporting, resulting in a 20% increase in overall operational efficiency.
- Led PHP and Drupal-based modernization projects, optimizing processes and achieving a 15% reduction in system response time.
- Orchestrated project lifecycles, overseeing test processes and phases, leading to a 25% improvement in project delivery timelines.
- Innovated a Web application using TypeScript and Vue JS for Amazon FireTV and smart TVs, resulting in a 30% increase in user engagement.
- Designed a user-friendly interface with Vue JS, contributing to a 40% enhancement in overall user satisfaction.
- Served as a technical lead for third-party API integrations and implemented data processing automation, leading to a 20% reduction in manual data handling and errors.

Treasurer

Cristal | *Mar. 2016 – Jan. 2018*

- Managed EPITA junior company accounting department, executed projects, and handled client relations.
- Designed and developed various client projects, organized training.

Software Engineer Intern

Imerys | *Aug. – Dec. 2016*

- Created a program in Python for workflow automation and data processing.
- Simplified cloud services usage for document sharing using SharePoint.

Developer Intern

Airbus Defence & Space | *Jul. – Aug. 2015*

- Developed a 3D visualization app in Java to optimize satellite platform presentation.

Software Engineer Intern Project

Capstone Project in partnership with French Air Force | *Apr. – Dec. 2017*

- Developed augmented reality visualization tool for engine parts and documents in the HoloLens AR headset.

Education

Master of Engineering in Computer Science and Information Technology – EPITA | *2015-2018*

- Major: Multimedia and Information Technology
- Minor: Global Economics and Geopolitics

Academic Exchange – CSU Monterey Bay | *2016*

Skills

Programming Languages: JavaScript / TypeScript, C / C# / C++, PHP, Python, Java, HTML, CSS, SQL

Frameworks: Nest.js, Vue.js, Nuxt.js

Development Tools: Git, Jira, Confluence, Docker

Methodologies: Scrum, Agile

Languages

English: Fluent

French: Fluent

Interests

Movies, Mechanical Sports, Formula 1, Golf, Traveling, Video Games, Streaming
